Eventually, you will definitely discover a other experience and success by spending more cash. nevertheless when? do you resign yourself to that you require to get those all needs afterward having significantly cash? Why dont you try to acquire something basic in the beginning? Thats something that will guide you to comprehend even more going on for the globe, experience, some places, when history, amusement, and a lot more?

It is your utterly own become old to pretend reviewing habit. in the middle of guides you could enjoy now is **Aristotelian Philosophy Ethics And Politics From Aristotle To Macintyre** below.

Roman Masculinity and Politics from Republic to Empire Dec 24 2021 This volume explores the role that republican political participation played in forging elite Roman masculinity. It situates familiarly "manly" traits like militarism, aggressive sexuality, and the pursuit of power within a political system based on power sharing and cooperation. In deliberations in the Senate, at social gatherings, and on military campaign, displays of consensus with other men greased the wheels of social discourse and built elite comradery. Through literary sources and inscriptions that offer censorious or affirmative appraisal of male behavior from the Middle and Late Republic (ca. 300 – 31 BCE) to the Principate or Early Empire (ca. 100 CE), this book shows how the *vir bonus*, or "good man," the Roman persona of male aristocratic excellence, modulated imperatives for personal distinction and military and sexual violence with political cooperation and moral exemplarity. While the advent of one-man rule in the Empire transformed political power relations, ideals forged in the Republic adapted to the new climate and provided a coherent model of masculinity for emperor and senator alike. Scholars often paint a picture of Republic and Principate as distinct landscapes, but enduring ideals of male self-fashioning constitute an important continuity. *Roman Masculinity and Politics from Republic to Empire* provides a fascinating insight into the intertwined nature of masculinity and political power for anyone interested in Roman political and social history, and those working on gender in the ancient world more broadly.

The Routledge Handbook of Translation and Politics Jan 01 2020 The Routledge Handbook of Translation and Politics presents the first comprehensive, state of the art overview of the multiple ways in which 'politics' and 'translation' interact. Divided into four sections with thirty-three chapters written by a roster of international scholars, this handbook covers the translation of political ideas, the effects of political structures on translation and interpreting, the politics of translation and an array of case studies that range from the Classical Mediterranean to contemporary China. Considering established topics such as censorship, gender, translation under fascism, translators and interpreters at war, as well as emerging topics such as translation and development, the politics of localization, translation and interpreting in democratic movements, and the politics of translating popular music, the handbook offers a global and interdisciplinary introduction to the intersections between translation and interpreting studies and politics. With a substantial introduction and extensive bibliographies, this handbook is an indispensable resource for students and researchers of translation theory, politics and related areas.

100 Questions about Women and Politics Mar 15 2021 Both yesterday's suffragists and today's feminists have battled for women to vote and hold office, and their successes have made it possible for countries such as Argentina, Brazil, Germany, Iceland, Liberia, and the United Kingdom to have female heads of state. Despite these notable advances, women are still largely underrepresented in parliaments and governments around the world. Why, after so many years of feminist struggle, are women still obstructed from full political citizenship by a glass ceiling? Manon Tremblay's *100 Questions about Women and Politics* discusses electoral politics in Canada and abroad, focusing on women's rights to vote and run for office in legislative elections, political parties, voting systems, electoral quotas for women, and participation in parliaments and governments. Against a

background of observations taken from academic research, Tremblay uses an innovative approach by dividing her book into 100 questions and answers to address a range of important issues. Are electorates sexist or lesbophobic? Are family responsibilities a real obstacle to women's engagement in politics? What strategies are available to increase the number of female politicians? Are gender quotas democratic? Once elected to office, do women represent women? How does women's political citizenship in Canada compare to that in other countries? A timely book on the unfinished work of representative democracy, *100 Questions about Women and Politics* takes a comprehensive yet concise approach to demystifying the major issues dominating the study of gender and government.

Politics and Politicians Nov 22 2021

Points of View: Readings in American Government and Politics Oct 22 2021 The publication of the tenth edition of *Points of View: Readings in American Government and Politics* marks this classic reader's 25th anniversary! The goal of the book remains clear: to present readable, succinct, thoughtful, and diverse perspectives across a broad range of issues. This comprehensive reader features contrasting viewpoints on current political debates and traditional topics of interest in contemporary American Government courses. By providing two opposing positions for each topic, *Points of View* challenges students to examine and appreciate differing perspectives.

Christianity and Politics Jul 27 2019 It is not simply for rhetorical flourish that politicians so regularly invoke God's blessings on the country. It is because the relatively new form of power we call the nation-state arose out of a Western political imagination steeped in Christianity. In this brief guide to the history of Christianity and politics, Pecknold shows how early Christianity reshaped the Western political imagination with its new theological claims about eschatological time, participation, and communion with God and neighbor. The ancient view of the Church as the "mystical body of Christ" is singled out in particular as the author traces shifts in its use and meaning throughout the early, medieval, and modern periods--shifts in how we understand the nature of the person, community and the moral conscience that would give birth to a new relationship between Christianity and politics. While we have many accounts of this narrative from either political or ecclesiastical history, we have few that avoid the artificial separation of the two. This book fills that gap and presents a readable, concise, and thought-provoking introduction to what is at stake in the contentious relationship between Christianity and politics. "Political theology--thinking theologically about politics and understanding all political thought as first-and-last theological--is a lively field that until now has lacked a lucid and elegantly brief introduction. Pecknold's book fills that gap, and more: it makes a real theoretical contribution of its own, most notably in its treatment of the migration of the treatment of conscience from church to state, and the effects of that migration on the understanding of freedom, political and otherwise." --Paul J. Griffiths, Warren Chair of Catholic Theology, Duke Divinity School "Modern life and thought has a centripetal force, separating into discrete units what should be held together: politics, economics, theology, metaphysics, liturgy, and history. This division of labor creates specialists who can see the units but lack focus for a larger vision . . . In this substantive, readable, brief history of the relation between theology and politics, Pecknold focuses our vision by bringing together his own considerable acumen for both theology and politics. This comprehensive work shows connections that only someone of his breadth of knowledge could see. The result is a first-rate work that sets the bar for political theology." --D. Stephen Long, Professor of Systematic Theology, Marquette University "If it is true that "youth is wasted on the young," then to restrict this so-called primer only to beginning learners or students would be wasteful in the extreme. This is a first-rate book, a serious and fascinating work on theology and politics that masquerades as a gateway resource. Yet it also succeeds as an outstanding introduction--readable without being simplistic, engaging key voices and eras in the long interaction between Christianity and politics. I can't wait to use this book with students, both to give them a solid grounding in key ideas and sources, as well as whetting their appetites for joining in these crucial conversations and debates. Anyone with an interest in the church and politics will benefit from this book." --Michael Budde, Professor of Political Science, DePaul University "At last I have found a textbook for my undergraduate course on Christianity and Politics! Pecknold's book is brief and crystal clear, ideally suited to supplement primary source readings in an introductory class. This book helps the student grasp the sweep of Christianity's political history in a relatively few deft strokes. The broad-brush approach does not mean the book is simplistic, however. To the contrary, Pecknold's analysis is insightful, engaging, and at times contentious. Pecknold shows how theological concepts like "mystical body" have wandered in and out of different political arrangements. In so doing, he shows students how church

Changing Times Nov 30 2019 1964 was when the swinging sixties really began. Youth culture dominated the media and the spirit of optimism was ubiquitous. Yet there were also darker forces at work which proved to be equally significant for the future. *Changing Times* presents a clear and detailed picture of the many personalities, events and trends that made this year so remarkable. The escalation of the Vietnam War, elections in the USA and the UK, the struggle for civil rights and the imprisonment of Nelson Mandela are just some of the topics covered. Author Steve Millward makes the connections between music and politics and links them to the wider world of art, film, fashion, sport, science and technology. He also goes beyond the UK and America, covering developments in Africa and the Caribbean. Throughout the book, the focus remains upon the music – pop, rock, folk, soul, jazz, classical – which so consistently reached new heights of quality and innovation, the repercussions of which are still being felt today. Steve covers music recorded and released in 1964, as well as earlier recordings which had an impact that year. The most notable instance is The Beatles' 'I Want To Hold Your Hand', recorded in October '63, which spearheaded the band's breakthrough in the USA in 1964. Millward also celebrates the work of lesser-known but hugely influential figures such as Bert Berns, Eric Dolphy and Phil Ochs. The originality and insight contained in this book will appeal to intelligent readers of all ages and interests, in particular those with an interest in music history and politics. Steve draws inspiration from a number of authors, including Greil Marcus, Peter Guralnick, Susan Douglas, Alex Ross and Jonathon Green.

In-Your-Face Politics Jun 05 2020 Americans are disgusted with watching politicians screaming and yelling at one another on television. But does all the noise really make a difference? Drawing on numerous studies, Diana Mutz provides the first

comprehensive look at the consequences of in-your-face politics. Her book contradicts the conventional wisdom by documenting both the benefits and the drawbacks of in-your-face media

American Government and Politics Today, Enhanced Brief Dec 12 2020 Issues like COVID-19, Black Lives Matter, police brutality, trade wars and cyberattacks add to the complexity of the U.S. political system. Schmidt/Shelley/Bardes' AMERICAN GOVERNMENT AND POLITICS TODAY, ENHANCED BRIEF 11th edition helps you make sense of it all while learning to be an informed citizen and active participant in the political process. A colorful design and current political news and analysis make this an ideal resource to explain fundamentals of the U.S. government and its intricate political system and how they impact your life -- now and in the future. Extremely reader-friendly, the book has been praised for its brevity, balanced coverage and clarity. Digital course solutions MindTap and Infuse are available.

London Crowds in the Reign of Charles II Aug 08 2020 This study of the political attitudes of ordinary Londoners during the reign of Charles II examines not only the manifestations of public opinion - for example, riot and demonstration - but also the manner of its formation - religious experience, economic activity, and exposure to mass political propaganda. Professor Harris shows to be misleading the conventional view, that the whigs enjoyed the support of the London masses, and the Tories were essentially anti-populist. Both sides had public support during the exclusion crisis, and this division stemmed from fundamental religious tensions within London political culture, dating back to 1660 and before. Attractively illustrated with polemical contemporary engravings, *London Crowds* demonstrates clearly the value of bringing together both high and low activity into a truly integrated social history of politics, and sheds important new light not just on urban agitation but on the nature of late-Stuart party conflict.

The Party Period and Public Policy Sep 08 2020 Annotation. These boldly argued essays describe and analyze key developments in American politics and government in an era when political parties commanded mass loyalties and wielded unprecedented power over government affairs. McCormick follows the major parties from their emergence in the 1820s and 1830s to their transformation almost a century later, discussing the nature of governance, clarifying economic policies of promotion, distribution, and (later) regulation that characterized government functions at every level, and sorting out the complex relationships between politics and policy during the "party period."

Politics Out of History Oct 02 2022 What happens to left and liberal political orientations when faith in progress is broken, when both the sovereign individual and sovereign states seem tenuous, when desire seems as likely to seek punishment as freedom, when all political conviction is revealed as contingent and subjective? *Politics Out of History* is animated by the question of how we navigate the contemporary political landscape when the traditional compass points of modernity have all but disappeared. Wendy Brown diagnoses a range of contemporary political tendencies--from moralistic high-handedness to low-lying political despair in politics, from the difficulty of formulating political alternatives to reproaches against theory in intellectual life--as the consequence of this disorientation. *Politics Out of History* also presents a provocative argument for a new approach to thinking about history--one that forsakes the idea that history has a purpose and treats it instead as a way of illuminating openings in the present by, for example, identifying the haunting and constraining effects of past injustices unresolved. Brown also argues for a revitalized relationship between intellectual and political life, one that cultivates the autonomy of each while promoting their interlocutory potential. This book will be essential reading for all who find the trajectories of contemporary liberal democracies bewildering and are willing to engage readings of a range of thinkers--Freud, Marx, Nietzsche, Spinoza, Benjamin, Derrida--to rethink democratic possibility in our time.

CliffsNotes AP U.S. Government and Politics Oct 29 2019 Your complete guide to a higher score on the *AP U.S. Government and Politics About the book: Introduction Reviews of the AP exam format and scoring Proven strategies for answering multiple-choice questions Hints for tackling the essay questions FAQs Part I: Subject Area Reviews Covers all subject areas you'll be tested on Constitutional basis of U.S. government Political beliefs and behaviors Political parties, interest groups, and mass media Structure of government Public policy Civil rights and civil liberties Includes sample questions and answers for each subject Part II: AP U.S. Government and Politics Practice Exams 3 full-length practice exams with answers and complete explanations

Divided Politics, Divided Nation Jun 29 2022 Why are Americans so angry with each other? The United States is caught in a partisan hyperconflict that divides politicians, communities—and even families. Politicians from the president to state and local office-holders play to strongly-held beliefs and sometimes even pour fuel on the resulting inferno. This polarization has become so intense that many people no longer trust anyone from a differing perspective. Drawing on his personal story of growing up as a fundamentalist Christian on a dairy farm in rural Ohio, then as an academic in the heart of the liberal East Coast establishment, Darrell West analyzes the economic, cultural, and political aspects of polarization. He takes advantage of his experiences inside both conservative and liberal camps to explain the views of each side and offer insights into why each is angry with the other. West argues that societal tensions have metastasized into a dangerous tribalism that seriously threatens U.S. democracy. Unless people can bridge these divisions and forge a new path forward, it will be impossible to work together, maintain a functioning democracy, and solve the country's pressing policy problems.

Justice and the Politics of Difference Aug 27 2019 "In this classic work of feminist political thought, Iris Marion Young challenges the prevailing reduction of social justice to distributive justice. The starting point for her critique is the experience and concerns of the new social movements that were created by marginal and excluded groups, including women, African Americans, and American Indians, as well as gays and lesbians. Young argues that by assuming a homogeneous public, democratic theorists fail to consider institutional arrangements for including people not culturally identified with white European male norms. Consequently, theorists do not adequately address the problems of an inclusive participatory framework. Basing her vision of the good society on the culturally plural networks of contemporary urban life, Young makes the case that normative theory and public policy should undermine group-based oppression by affirming rather than suppressing social group

differences"--Provided by publisher.

Refiguring Revolutions Jan 13 2021 "What is indeed striking is the degree to which the essays reveal a shared set of interests and adopt languages and concerns that reflect back and forth in stimulating ways."--Richard W. Kroll, author of *The Material World*

The Politics of Resentment Nov 10 2020 Since the election of Scott Walker, Wisconsin has been seen as ground zero for debates about the appropriate role of government in the wake of the Great Recession. In a time of rising inequality, Walker not only survived a bitterly contested recall that brought thousands of protesters to Capitol Square, he was subsequently reelected. How could this happen? How is it that the very people who stand to benefit from strong government services not only vote against the candidates who support those services but are vehemently against the very idea of big government? With *The Politics of Resentment*, Katherine J. Cramer uncovers an oft-overlooked piece of the puzzle: rural political consciousness and the resentment of the "liberal elite." Rural voters are distrustful that politicians will respect the distinct values of their communities and allocate a fair share of resources. What can look like disagreements about basic political principles are therefore actually rooted in something even more fundamental: who we are as people and how closely a candidate's social identity matches our own. Using Scott Walker and Wisconsin's prominent and protracted debate about the appropriate role of government, Cramer illuminates the contours of rural consciousness, showing how place-based identities profoundly influence how people understand politics, regardless of whether urban politicians and their supporters really do shortchange or look down on those living in the country. *The Politics of Resentment* shows that rural resentment—no less than partisanship, race, or class—plays a major role in dividing America against itself.

The Government And Politics Of Israel Sep 28 2019 Israeli government and politics have undergone significant changes since the second edition of this book was published in 1983. Israel withdrew from Lebanon, absorbed hundreds of thousands of new immigrants from the collapsed Soviet Union and Ethiopia, and undertook peace negotiations with the Palestinians and other Arab neighbors that led to a historic peace treaty, the Declaration of Principles. These events were made possible as a result of several institutional, legal, and normative changes in the political system. This completely revised edition of *The Government and Politics of Israel* offers a comprehensive and up-to-date overview of the dynamics of Israeli politics. This edition focuses on issues that have become central in the study of Israel's political system, such as new electoral procedures, the formation of new parties, government administrative reorganization, fresh personalities on the national scene, and the peace process. The book is intended to familiarize those interested in Israel's government with its origins; the evolution of its institutions, practices, and traditions; and the workings of the government today.

Taking Our Country Back Jun 17 2021 *Taking Our Country Back* presents the previously untold history of the uptake of new media in Democratic electoral campaigning over the last decade. Drawing on open-ended interviews with more than fifty political staffers, fieldwork during the 2008 primaries and general election, and archival research, Daniel Kreiss shows how a group of young, technically-skilled internet staffers came together on the Howard Dean campaign and created a series of innovations in organization, tools, and practice that have changed the campaign game. After the election, these individuals founded an array of consulting firms and training organizations and staffed prominent Democratic campaigns. In the process, they carried their innovations across Democratic politics and contributed to a number of electoral victories, including Barack Obama's historic bid for the presidency. In revealing this history, the book provides a rich empirical look at the communication tools, practices, and infrastructure that shape contemporary online campaigning. Through a detailed history of new media and political campaigning, *Taking Our Country Back* contributes to an interdisciplinary body of scholarship from communication, sociology, and political science. The book theorizes processes of innovation in online electoral politics and gives readers a new understanding of how the internet and its use by the Dean campaign have fundamentally changed the field of political campaigning. Kreiss shows how these innovations, exemplified by the Dean and Obama campaigns, were the product of the movement of staffers between industries and within organizational structures. Such movement provided a space for technical development and incentives for experimentation. *Taking Our Country Back* is a serious and vital analysis, both on-the-ground and theoretical, of how a small group of internet staffers transformed what campaigning means today and how cultural work mobilizes and motivates supporters to participate in collective action.

Everyday Life and Politics in Nineteenth Century Mexico Jul 19 2021 In this new and masterful synthesis, Wasserman shows the link between ordinary men and women-preoccupied with the demands of feeding, clothing, and providing shelter-and the elites' desire for a stable political order and an expanding economy. The three key figures of nineteenth-century Mexico-Antonio López de Santa Ana, Benito Juárez, and Porfirio Díaz-are engagingly reinterpreted. But the emphasis in this book is on the struggle of the common people to retain control over their everyday lives. Concerns central to village life were the appointment of police officials, imposition of taxes on Indians, the trustworthiness of local priests, and changes in land ownership.

Communities often followed their leaders into one political camp or another-and even into war-out of loyalty. Excesses in partisan politics and regional antagonisms gave rise to nearly eighty years of war, resulting in the nation's economic stagnation between 1821 and 1880 and the mass migration of women from the countryside to the city. The industrialization of urban employment forever altered gender relations. During wartime, women acted as the supply, transportation, and medical corps of the Mexican armies. Moreover, with greater frequency than has been known, women fought as soldiers in the nineteenth century. This account of Mexico from Independence to the Revolution combines lively explanations of social history, political and economic change, and gender relations. Wasserman offers a well-written, thoughtful, and original history of Mexico's nineteenth century that will appeal to students and specialists alike. "At long last, a clear-headed, non-romanticized, and non-adversarial analysis of everyday life and politics across the vast sweep of a century of change and rebirth. This is a first-rate book, expert and highly accessible."--Professor Timothy E. Anna, University of Manitoba

Political Leadership Mar 27 2022 From ancient times to the present day, here are indispensable insights on political power and

leadership as expressed in the novels, plays, and poetry of the world's greatest artists and intellectuals. Adapted from a course taught at Harvard by Pulitzer Prize—winning author Robert Coles, *Political Leadership* features scenes, stories, and speeches that pierce to the core of how and why some lead and others follow. In *Felix Holt, the Radical*, George Eliot observes that progressive reformers can be even more self-serving than their conservative counterparts; in *The Prime Minister*, Anthony Trollope suggests that honest men must cope with the corruption of politics—or leave leadership entirely to the crooked; and the works of Nadine Gordimer and George Orwell reveal that those who overturn tyrants often envy their power and repeat their mistakes. Anyone trying to understand today's confused and violent world will be both challenged and inspired by this unique and important collection.

Sex, Lies and Politics Sep 01 2022 Elections aren't just important – they are revealing. They tell us things about who we are and how we behave. Written by leading political experts, *Sex, Lies and Politics* reveals what really makes us tick. At once funny, revealing and shocking, it covers everything you need to know about the voters and their quirks, foibles and sexual secrets, including when they lie (often to themselves), how they are swayed by tribal loyalties (even when judging cats and celebrities), and why you should keep quiet about your Brexit vote when moving house... Combining brand-new essays with fully updated pieces from the acclaimed *Sex, Lies and the Ballot Box* and *More Sex, Lies and the Ballot Box*, this witty and thought-provoking collection is a guaranteed conversation starter. If you want to discover which party's voters have the wildest private lives, read on.

American Government and Politics Today, 2018 Election Update Aug 20 2021 Making politics personal, Bardes/Shelley/Schmidt's *American Government and Politics Today, The Essentials, Enhanced 19th Edition* equips you with the tools and insight to become an active, informed citizen. Unbiased, updated with Election 2018 analysis and extremely student-friendly, the text combines a conversational, easy-to-read style with thorough coverage in a streamlined format. Political authorities as well as longtime professors who know what today's students like, the authors incorporate a wealth of current, compelling and thought-provoking examples that bring chapter concepts to life. In addition, numerous hands-on activities help you figure out where you stand on key issues so you can put your views into action. Also available: MindTap, Cengage Learning's fully online learning solution.

On Lying and Politics Sep 20 2021 More urgent than ever, two landmark essays by the legendary political theorist on the greatest threat to democracy, gathered with a new introduction by David Bromwich “No one,” Hannah Arendt observed, “has ever counted truthfulness as a political virtue.” But why do politicians lie? What is the relationship between political lies and self-delusion? And how much organized deceit can a democracy endure before it ceases to function? Fifty years ago, the century's greatest political theorist turned her focus to these essential questions in two seminal essays, brought together here for the first time. Her conclusions, delivered in searching prose that crackles with insight and intelligence, remain powerfully relevant, perhaps more so today than when they were written. In “Truth and Politics,” Arendt explores the affinity between lying and politics, and reminds us that the survival of factual truth depends on the testimony of credible witnesses and on an informed citizenry. She shows how our shared sense of reality—the texture of facts in which we wrap our daily lives—can be torn apart by organized lying, replaced with a fantasy world of airbrushed evidence and doctored documents. In “Lying in Politics,” written in response to the release of the Pentagon Papers, Arendt applies these insights to an analysis of American policy in Southeast Asia, arguing that the real goal of the Vietnam War—and of the official lies used to justify it by successive administrations—was nothing other than the burnishing of America's image. In his introduction, David Bromwich (*American Breakdown: The Trump Years and How They Befell Us*) engages with Arendt's essays in the context of her other writings and underscores their clarion call to take seriously the ever-present threat to democracy posed by lying.

Mormons in American Politics Jan 31 2020 This book provides a comprehensive explanation of how the Mormons have transformed from a hated and persecuted fringe group to a well-established world religion with viable candidates for all levels of American government. The Mormon tradition is unfamiliar and mysterious to most Americans outside of the religion, and understandably generates much curiosity. *Mormons in American Politics: From Persecution to Power* provides an intellectual foundation of Mormon development and emergence in politics, comprehensively examining significant issues and developments from historical, theological, cultural, and modern perspectives. The work analyzes diverse, contemporary topics including Mormons in popular culture, Mormon understandings of the Constitution, the Mormon welfare program, Mormon opposition to same-sex marriage, and the global expansion of Mormonism. The book is ideal for scholars and students of American politics, history, and culture; Mormon studies; religious studies; and religion and politics; as well as general readers who are interested in Mormon religion and culture or the rise of Mormon figures in mainstream American politics.

Women, Work, and Politics Jan 25 2022 This book presents an original and groundbreaking approach to gender inequality. Looking at women's power in the home, in the workplace, and in politics from a political economy perspective, the authors demonstrate that equality is tied to demand for women's labor outside the home, which is a function of structural, political, and institutional conditions.--[book jacket].

Strategy and Politics May 05 2020 *Strategy and Politics: An Introduction to Game Theory* is designed to introduce students with no background in formal theory to the application of game theory to modeling political processes. This accessible text covers the essential aspects of game theory while keeping the reader constantly in touch with why political science as a whole would benefit from considering this method. Examining the very phenomena that power political machineries—elections, legislative and committee processes, and international conflict, the book attempts to answer fundamental questions about their nature and function in a clear, accessible manner. Included at the end of each chapter is a set of exercises designed to allow students to practice the construction and analysis of political models. Although the text assumes only an elementary-level training in algebra, students who complete a course around this text will be equipped to read nearly all of the professional literature that makes use of game theoretic analysis.

California Women and Politics Apr 27 2022 In 1911 as progressivism moved toward its zenith, the state of California granted women the right to vote. However, women's political involvement in California's public life did not begin with suffrage, nor did it end there. Across the state, women had been deeply involved in politics long before suffrage, and although their tactics and objectives changed they remained deeply involved thereafter. *California Women and Politics* examines the wide array of women's public activism from the 1850s to 1929—including the temperance movement, moral reform, conservation, trade unionism, settlement work, philanthropy, wartime volunteerism, and more—and reveals unexpected contours to women's politics in California. The contributors consider not only white middle-class women's organizing but also the politics of working-class women and women of color, emphasizing that there was not one monolithic "women's agenda," but rather a multiplicity of women's voices demanding recognition for a variety of causes.

Music and Politics Apr 15 2021 "This book examines music's political power. It shows how music has been at the heart of accounts of political order, how musicians from Bono to Blue have claimed to speak for peoples and political causes. It looks at the emergence of music as an object of public policy, in the classroom or in the copyright courts, as the focus of national pride or employment opportunities. The book brings together ideas about music's political significance (from Aristotle to Rousseau, to Adorno and beyond) to tell of the extraordinary potency of music across time and space. At its heart lies the argument that music and politics are inseparably linked, and that each animates the other"--Back cover.

The Oxford Handbook of Islam and Politics Mar 03 2020 The Oxford Handbook of Islam and Politics, with contributions from prominent scholars and specialists, provides a comprehensive analysis of what we know and where we are in the study of political Islam.

Winner-Take-All Politics Oct 10 2020 Analyzes the growing divide between the incomes of the wealthy class and those of middle-income Americans, exonerating popular suspects to argue that the nation's political system promotes greed and under-representation.

The Beginning of Politics May 29 2022 The Book of Samuel is universally acknowledged as one of the supreme achievements of biblical literature. Yet the book's anonymous author was more than an inspired storyteller. The author was also an uncannily astute observer of political life and the moral compromises and contradictions that the struggle for power inevitably entails. *The Beginning of Politics* mines the story of Israel's first two kings to unearth a natural history of power, providing a forceful new reading of what is arguably the first and greatest work of Western political thought. Moshe Halbertal and Stephen Holmes show how the beautifully crafted narratives of Saul and David cut to the core of politics, exploring themes that resonate wherever political power is at stake. Through stories such as Saul's madness, David's murder of Uriah, the rape of Tamar, and the rebellion of Absalom, the book's author deepens our understanding not only of the necessity of sovereign rule but also of its costs—to the people it is intended to protect and to those who wield it. What emerges from the meticulous analysis of these narratives includes such themes as the corrosive grip of power on those who hold and compete for power; the ways in which political violence unleashed by the sovereign on his own subjects is rooted in the paranoia of the isolated ruler and the deniability fostered by hierarchical action through proxies; and the intensity with which the tragic conflict between political loyalty and family loyalty explodes when the ruler's bloodline is made into the guarantor of the all-important continuity of sovereign power.--

Re-Framing Foreign Aid History and Politics Apr 03 2020 "Re-framing Foreign Aid History and Politics presents an integrated analysis, at once conceptual, historical, and political, of the growing impact of State Funded Aid on international relations, particularly after the collapse of the Berlin Wall and the end of the bipolar system. In order to observe aid as an emerging instrument of foreign policy, the book develops an original approach which puts donors and recipients on the same level, and examines the political dynamics of their relationship. The focus shifts from looking at the needs covered by aid interventions to the political motivations of donors and recipients. Aid is reconceptualized to include any transaction on favorable terms between these two parties, regardless of the object of that aid. This framework of analysis is applied to several historical cases, from the post-conflict transition in Bosnia and Herzegovina and the post-Soviet one in Russia in the 90s to the medical aid to Italy and Russian vaccine diplomacy to the Republic of San Marino during the COVID-19 pandemic. In the end, the book identifies ten major trends that have shaped the dynamics of the relationship between donors and recipients over the last few decades, and on a more general level, traces the impact that State Funded Aid has had on the international system. By arguing that, on the whole, donors have had greater political interests than recipients, the book takes a fresh and original look at aid as instrument of power politics. It will be of great interest to students, scholars, and practitioners of foreign aid and foreign policy, and to all those interested in analyzing how they have been affected by the global pandemic"--

Gale Encyclopedia of U.S. History Jun 25 2019

Unconditional Democracy Jul 07 2020 The difficult mission of a regime change: Toshio Nishi gives an account of how America converted the Japanese mindset from war to peace following World War II.

Women and Politics May 17 2021 *Women and Politics* is a comprehensive examination of women's use of politics in pursuit of gender equality. How can demands for gender equality be reconciled with sex differences? Resolving this paradoxical question has proceeded along two paths: the legal equality doctrine, which emphasizes gender neutrality, and the fairness doctrine, which recognizes differences between men and women. The text's clear analysis and presentation of theory and history helps students to think critically about the difficulties faced by women in politics, and about how public policies in education, labor and the economy, and family and fertility, impact gender equality. The fully-revised fourth edition explores new critical perspectives, recent political events, and current challenges to gender equality, including the 2016 presidential election and Hillary Clinton's candidacy, the fight for equal pay and paid leave, and the debate over reproductive rights and campus sexual assault. It also includes current scholarship on the intersections of race, class, and gender, and expanded coverage of minority women, women in the military, and conservative women. This text, and its two-path framework, is essential to understanding women's pursuit of

equality via the political system.

The Politics of the Book Nov 03 2022 It is impossible to separate the content of a book from its form. In this study, Filipe Carreira da Silva and Mónica Brito Vieira expand our understanding of the history of social and political scholarship by examining how the entirety of a book mediates and constitutes meaning in ways that affect its substance, appropriation, and reception over time. Examining the evolving form of classic works of social and political thought, including W. E. B. Du Bois's *The Souls of Black Folk*, G. H. Mead's *Mind, Self, and Society*, and Karl Marx's 1844 *Economic and Philosophic Manuscripts*, Carreira da Silva and Brito Vieira show that making these books involved many hands. They explore what publishers, editors, translators, and commentators accomplish by offering the reading public new versions of the works under consideration, examine debates about the intended meaning of the works and discussions over their present relevance, and elucidate the various ways in which content and material form are interwoven. In doing so, Carreira da Silva and Brito Vieira characterize the editorial process as a meaning-producing action involving both collaboration and an ongoing battle for the importance of the book form to a work's disciplinary belonging, ideological positioning, and political significance. Theoretically sophisticated and thoroughly researched, *The Politics of the Book* radically changes our understanding of what doing social and political theory—and its history—implies. It will be welcomed by scholars of book history, the history of social and political thought, and social and political theory.

The Private Roots of Public Action Feb 11 2021 Why, after several generations of suffrage and a revival of the women's movement in the late 1960s, do women continue to be less politically active than men? Why are they less likely to seek public office or join political organizations? *The Private Roots of Public Action* is the most comprehensive study of this puzzle of unequal participation. The authors develop new methods to trace gender differences in political activity to the nonpolitical institutions of everyday life--the family, school, workplace, nonpolitical voluntary association, and church. Different experiences with these institutions produce differences in the resources, skills, and political orientations that facilitate participation--with a cumulative advantage for men. In addition, part of the solution to the puzzle of unequal participation lies in politics itself: where women hold visible public office, women citizens are more politically interested and active. The model that explains gender differences in participation is sufficiently general to apply to participatory disparities among other groups--among the young, the middle-aged, and the elderly or among Latinos, African-Americans and Anglo-Whites. Table of Contents: Acknowledgments 1. Introduction: Citizenship and Unequal Participation 2. Studying Gender and Participation: A Brief Discourse on Method 3. Civic Activity: Political and Non-Political 4. The Political Worlds of Men and Women 5. The Legacy of Home and School 6. Domestic Tranquility: The Beliefs of Wives and Husbands 7. Domestic Hierarchy: The Household as a Social System 8. The Workplace Roots of Political Activity 9. The Realm of Voluntarism: Non-Political Associations and Religious Institutions 10. Gender, Institutions, and Political Participation 11. Gender, Race or Ethnicity, and Participation 12. Family Life and Political Life 13. What If Politics Weren't a Man's Game? 14. Conclusion: The Private Roots of Public Action Appendixes A. Numbers of Cases B. Ranges of Variables C. Supplementary Tables D. Explanation of Outcomes Analysis Index Reviews of this book: *The Private Roots of Public Action* begins with common explanations for the gender difference in participation, from domestic demands on women's time and psychic space through the effects of the patriarchal family, socioeconomic hierarchies, and political socialization...The results of [this] novel analysis are complex and interesting...The authors extend their model to examine the relationship between class, race or ethnicity, and political participation. This unique and accessible volume will be influential in the fields of political socialization and gender and politics. Strongly recommended. --B. E. Marston, *Choice* *The Private Roots of Public Action* is the most comprehensive examination of the similarities and differences in the political activity of women and men. The range of inquiry is enormous. Burns, Schlozman and Verba delve not only into political activity but also into the processes in the family, in the workplace, in places of worship, and in voluntary associations that promote and inhibit political involvement. This book goes beyond the literature in connecting to an enormous range of scholarship in political science, economics, and sociology. This is a fine piece of work. --John Mark Hansen, University of Chicago *The Private Roots of Public Action* is a very important book. It pushes research on gender and participation to a whole new level, and reshapes the agenda as far as our thinking and our research about the connections among family life, the workplace, institutions of civil society, and political and governmental institutions. The authors demonstrate the importance of understanding political participation within a larger context in a way that does justice to the complexity of people's lives. --Kristi Anderson, Syracuse University *The Private Roots of Public Action* is an important contribution to the literature on both political participation and gender politics. Because of its database, its tie-in to the most current work on political participation, and its comprehension of important current questions about gender politics, this book provides a new benchmark for work in this field. In particular, the Civic Voluntarism model developed by Verba, Schlozman, and Brady, and the consideration of how gender difference and inequality might feed into that model, is a unique contribution. This accessible book will be welcomed by gender politics scholars and will have an impact on the field of political participation. --Virginia Sapiro, University of Wisconsin-Madison

Women and Politics Jul 31 2022 *Women and Politics: Paths to Power and Political Influence* examines the role of women in politics from the early women's movement to the female politicians in power today. Focusing on women whose stories have not yet been told, this book includes new analysis and scholarship on the experiences and viewpoints of conservative women, women of color, LGBT women, and millennial women.

Guide to State Politics and Policy Feb 23 2022 No previous book has pulled together into one place a single, comprehensive volume that provides up-to-date coverage of state government and politics, along with the states' current and future public policies. This new book does just that, offering students, scholars, citizens, policy advocates, and state specialists accessible information on state politics and policy in 34 topical chapters written by experts in the field. The guide provides contemporary analysis of state institutions, processes, and public policies, along with both historical and theoretical perspectives that help

readers develop a comprehensive understanding of the 50 U.S. states' complex and changing political spheres. Those who use this volume—from experienced scholars to neophytes—can rely upon the guide to provide: Basic factual information on state politics and policy Core explanatory frameworks and competing arguments Insightful coverage of major policy areas as they have played out in the states.
