Political Campaign Communication Oct 08 2020 Political Campaign Communication: Inside and Out examines the ins and outs of political campaigning through the eyes of both an academic and a political consultant. This text takes a unique approach to the subject of campaign communication by examining its intricacies from views both inside and outside of the process. Unlike many texts in this field, Political Campaign Communication: Inside and

Out takes a broad view of political campaigning, discussing theories and principles, along with topics such as political socialization, the role of money, ethics, and critical events.

13th International Conference on Biomedical Engineering Nov 01 2022 th On behalf of the organizing committee of the 13 International Conference on Biomedical Engineering, I extend our w- mest welcome to you. This series of conference began in 1983 and is jointly organized by the YLL School of Medicine and Faculty of Engineering of the National University of Singapore and the Biomedical Engineering Society (Singapore). First of all, I want to thank Mr Lim Chuan Poh, Chairman A*STAR who kindly agreed to be our Guest of Honour to give th the Opening Address amidst his busy schedule. I am delighted to report that the 13 ICBME has more than 600 participants from 40 countries. We have received very high quality papers and inevitably we had to turndown some papers. We have invited very prominent speakers and each one is an authority in their field of expertise. I am grateful to each one of them for setting aside their valuable time to participate in this conference. For the first time, the Biomedical Engineering Society (USA) will be sponsoring two symposia, ie "Drug Delivery S- tems" and "Systems Biology and Computational Bioengineering". I am thankful to Prof Tom Skalak for his leadership in this initiative. I would also like to acknowledge the contribution of Prof Takami Yamaguchi for organizing the NUS-Tohoku's Global COE workshop within this conference. Thanks also to Prof Fritz Bodem for organizing the symposium, "Space Flight Bioengineering". This year's conference proceedings will be published by Springer as an IFMBE Proceedings Series.

Digital Photography Just The Steps For Dummies Dec 22 2021 Digital photography is sweeping the country, and it's easy to see why. You can take pictures of anything, do it quickly, see instantly what you got (or didn't get), save only the stuff you like, and share your pictures as prints, on the Web, as a slideshow, or even on things like mugs and mousepads. A digital camera and the appropriate software let you Take wide-angle or closeup shots, indoors or out Know immediately whether you got what you wanted Delete shots you don't like and retake

them Improve your images on your computer Combine images into a montage Customize your pictures by adding special visual effects Digital photography is fun, but whether you're an old hand at taking digital pictures or still picking out your first camera, there are plenty of times when you know what you want to do and just want to figure out how to do it, right now. PINEVOL Jun 27 2022 Taper functions describe a model of the actual geometric shape of a tree. When this shape is assumed to be known, volume by any log rule and to any merchantability standard can be calculated. PINEVOL is a computer program for calculating the volume of the major southern pines using species-specific bole taper functions. It can use the Doyle, Scribner, or International -inch log rules or calculate solid wood volume inside or outside of bark. This document describes the methods used in volume calculation in PINEVOL and is a program users guide.
