The Mathematics Lesson-Planning Handbook, Grades 6-8 Jun 11 2021 Ever feel burdened by mathematics lesson planning? Your blueprint for designing Grades 6-8 math lessons that enhance state standards and address the learning needs of students is here. This indispensable handbook guides you step-by-step to plan math lessons that are purposeful, rigorous, and coherent. The effective planning process helps you Clarify learning intentions and connect goals to success criteria Structure lessons to fit traditional or block schedules Select the formats and tasks that facilitate questioning and encourage productive struggle Includes a lesson-planning template and examples from Grades 6-8 classrooms. Empower yourself to plan strategically, teach with intention, and build an individualized and manageable set of mathematics lesson plans.

Instructional Supervision Nov 23 2019 This essential text for prospective school leaders enrolled in instructional supervision and evaluation courses provides the knowledge and practical tools to improve teacher effectiveness. Melding theory and practice, this book is a definitive guide to successful classroom observations, pre- and post-observation conferences, and approaches such as action research, peer coaching, and mentoring. The fourth edition of this text has been thoroughly updated to meet the needs of school leaders in today's educational climate. Features new to this edition include: Additional and updated tools to support school leaders in conducting effective classroom observations and assessing teachers' professional learning needs; New case studies, suggested fieldwork, and extended reflections to outline practical applications for the strategies discussed; Suggested readings to supplement the information included in this book; Expanded discussions of professional learning communities and the topic of motivation; New chapters on teacher evaluation and instructional strategies that support personalization and learning technologies. This book offers strategies to work with teachers at all stages in their careers, laying a strong foundation for effective instructional supervision in PreK-12 schools. Many of the templates and tools in this book are also available as free eResource downloads from our website (www.routledge.com/9781138649347).

Nature Intervention Jan 18 2022 Nature Intervention By: Albert Wireko Osei, PhD In Nature Intervention, Albert Wireko Osei, PhD provides an effective, sustainable, comprehensive and easy-to-implement special education treatment for individuals living with Autism Spectrum Disorder. With special attention to recent advances in early identification, diagnosis and the treatment of the disorder, this longitudinal study provides expert guidance, experiential narratives and problem-solving strategies for families, teachers, clinicians, students, researchers and individuals living with autism. The book also provides a narrative account of fathering a child with autism and the experience provides readers with everything they want to know about the diagnosis, treatment, coping and healing strategies for Autism Spectrum Disorder. Practical knowledge and professional experiences supported with case studies are shared with readers throughout the book. Readers will enjoy reading and learning about nature-based treatment intervention activities that are resourceful, practical, available and accessible to every individual on the Autism Spectrum, irrespective of their socio-economic and geographical location.

Performance Assessment May 22 2022

The New Teacher's Companion Sep 26 2022 Advice for new teacher excellence, including guidance on classroom management.

The Professional Practice of Teaching in New Zealand Aug 13 2021 The Professional Practice of Teaching in New Zealand contains a wealth of information that pre-service teachers need to know in order to learn to teach effectively. Written specifically for the New Zealand setting, it highlights the range of knowledge and skills that teachers require in order to make a positive difference to their students' lives. This new edition has been fully updated to exemplify the latest research and align with the current New Zealand context. New chapters on topics such as effective teaching in modern learning environments, Maori learners and diverse learners add new depth to the text and sit alongside a new introductory chapter that welcomes students to the profession of teaching in New Zealand. Throughout the text many case studies, activities and stories from real-life teachers and students help readers to link the theory to their classroom practices.

Authors as Mentors May 10 2021 Part of a year-long curriculum of units about primary writing

Pattern Fish Aug 01 2020 Illustrations and rhyming text describe various patterns depicted by different fish. Includes related activities.

Understanding by Design Jun 23 2022 Presents a multifaceted model of understanding, which is based on the premise that people can demonstrate understanding in a variety of ways.

Skills-Based Health Education Apr 21 2022 The Second Edition of Skills-Based Health Education provides pre-service and practicing teachers with the pedagogical foundation and tools to develop a comprehensive PreK-12 health education program using the National Health Education Standards. It takes each standard by grade span, provides scenarios based on research to explain the skill, and then provides a step-by-step approach to planning assessment and instruction. Early chapters connect skills-based health education to coordinated school health and the national initiatives of the Centers for Disease Control and Prevention, Healthy People 2020, The Whole Child, and 21st Century Skills. The remaining chapters provide guidance to plan implement, and assess performance tasks. Readers are shown how to establish student needs, select content and skill performance indicators to meet those needs, and plan and implement assessment and instructions.

Teach Like a Champion 2.0 Sep 21 2019 One of the most influential teaching guides ever—updated! Teach Like a Champion 2.0 is a complete update to the international bestseller. This teaching guide is a must-have for new and experienced teachers alike. Over 1.3 million teachers around the world already know how the techniques in this book turn educators into classroom champions. With ideas for everything from boosting academic rigor, to improving classroom management, and inspiring student engagement, you will be able to strengthen your teaching practice right away. The first edition of Teach Like a Champion influenced thousands of educators because author Doug Lemov's teaching strategies are simple and powerful. Now, updated techniques and tools make it even easier to put students on the path to college readiness. Here are just a few of the brand new resources available in the 2.0 edition: Over 70 new video clips of real teachers modeling the techniques in the classroom (note: for online access of this content, please visit my.teachlikeachampion.com) A selection of never before seen techniques inspired by top teachers around the world Brand new structure emphasizing the most important techniques and step by step teaching guidelines Updated content reflecting the latest best practices from outstanding educators Organized by category and technique, the book's structure enables you to read start to finish, or dip in anywhere for the specific challenge you're seeking to address. With examples from outstanding teachers, videos, and additional, continuously updated resources at teachlikeachampion.com, you will soon be teaching like a champion. The classroom techniques you'll learn in this book can be adapted to suit any context. Find out why Teach Like a Champion is a "teaching Bible" for so many educators worldwide.

The PD Curator Mar 08 2021 One of the best ways to learn how to be a better teacher is by watching, listening to, and experimenting with the practices of great teachers, including those in your own school. The PD Curator is about how professional learning experiences can become more inclusive, participatory, cohesive, and effective—and about the role teachers and leaders can play in creating those experiences. That role isn't so much administrative as it is curatorial. Just as art curators can legitimize artists by including their work in a gallery or exhibit, PD curators have the power to legitimize the work of an array of teachers. They help create immersive intellectual, emotional, and social experiences—all while caring for the professionals and the profession. In this book, Lauren Porosoff explains how PD curators * Structure teachers' schedules to make time for in-house professional learning. * Select content and create a process for how people interact with it. * Fit the often disparate pieces together into a meaningful whole. * Discover whether the event has been successful. The practical tools and protocols in each chapter will help you plan professional learning that taps into the expertise and interests of a diverse staff. Canned sessions that don't connect with teachers' actual needs will be a thing of the past. Instead, you'll discover ways to support teachers in sharing ideas and trying out new practices that advance student learning. In doing so, you'll empower teachers and students alike.

Educational Research and Innovation Fostering Students' Creativity and Critical Thinking What it Means in School Oct 23 2019 Creativity and critical thinking are key skills for complex, globalised and increasingly digitalised economies and societies. While teachers and education policy makers consider creativity and critical thinking as important learning goals, it is still unclear to many what it means to develop these skills in a school setting. To make it more visible and tangible to practitioners, the OECD worked with networks of schools and teachers in 11 countries to develop and trial a set of pedagogical resources that exemplify what it means to teach, learn and make progress in creativity and critical thinking in primary and secondary education.

Common Core Curriculum Maps in English Language Arts, Grades K-5 Mar 28 2020 The first books to present specific guidance for teaching the Common Core State Standards Forty-three states plus the District of Columbia and the U.S. Virgin Islands have signed on to adopt the Common Core State Standards (CCSS). The need for curriculum guides to assist teachers in helping students meet these standards has become imperative. Created by teachers, for teachers, the research-based curriculum maps in this book present a comprehensive, coherent sequence of thematic units for teaching the skills outlined in the CCSS for English language arts in Grades K-5. The maps address every standard in the CCSS, yet are flexible and adaptable to accommodate diverse teaching styles. Each grade is broken down into six units that include focus standards, suggested works, sample activities and assessments, lesson plans, and more Teachers can use the maps to plan their year and craft their own more detailed lesson plans Any teacher, school, or district that chooses to follow the Common Core maps can be confident that they are adhering to the standards.

Epistemic Fluency and Professional Education Feb 25 2020 This book, by combining sociocultural, material, cognitive and embodied perspectives on human knowing, offers a new and powerful conceptualisation of epistemic fluency – a capacity that underpins knowledgeable professional action and innovation. Using results from empirical studies of professional education programs, the book sheds light on practical ways in which the development of epistemic fluency can be recognised and supported - in higher education and in the transition to work. The book provides a broader and deeper conception of epistemic fluency than previously available in the literature. Epistemic fluency involves a set of capabilities that allow people to recognize and participate in different ways of knowing. Such people are adept at combining different kinds of specialised and context-dependent knowledge and at reconfiguring their work environment to see problems and solutions anew. In practical terms, the book addresses the following kinds of questions. What does it take to be a productive member of a multidisciplinary team working on a complex problem? What enables a person to integrate different types and fields of knowledge, indeed different ways of knowing, in order to make some well-founded decisions and take actions in the world? What personal knowledge resources are entailed in analysing a problem and describing an innovative solution, such that the innovation can be shared in an organization or professional community? How do people get better at these things; and how can teachers in higher education help students develop these valued capacities? The answers to these questions are central to a thorough understanding of what it means to become an effective knowledge worker and resourceful professional.

Telling Pieces Dec 05 2020 Telling Pieces is an exploration of how pre-adolescent middle-school children develop a knowledge and understanding of the conventions of art (art as literacy) and how they use this knowledge to create representations of their lives in a small midwestern U.S. town. Beginning with

an overview of social semiotics and emergent literacy theorizing, the authors set the stage for their study of sixth graders involved in art. A gallery of children's artworks is presented, allowing readers/viewers to consider these texts independent of the authors' interpretations of them. Then, set against the gallery is the story of the community and school contexts in which the artworks are produced--contexts in which racism, homophobia, and the repression of creativity are often the norm. The interpretation the authors bring to bear on the artworks reveals stories that the artworks may or may not tell on their own. But the tales of artistic literacy achievement are counterbalanced by reflection about the content of the artworks produced, because the artworks reveal the impossibility for students to imagine beyond the situational bounds of racism, homophobia, and religiosity. The authors conclude by raising questions about the kinds of conditions that make literacy in art possible. In doing so, they explore selected alternative models and, in addition, ask readers to consider the implications of the ideological issues underlying teaching children how to represent their ideas. They also advocate for a participatory pedagogy of possibility founded on ethical relational principles in the creation and interpretation of visual text. Of particular interest to school professionals, researchers, and graduate students in literacy or art education, this pioneering book: * brings together the fields of art education and literacy education through its focus on how middle school students come to work with and understand the semiotic systems, * introduces sociolinguistic, sociological, and postmodernist perspectives to thinking about children's work with art--adding a new dimension to the psychological and developmental descriptions that have tended to dominate thinking in the field, * includes a gallery of 40 examples of children's artwork, providing a unique opportunity for readers/viewers to interpret and consider the artwork of the sixth graders independent of the authors' interpretations, * presents descriptions of art teaching in process, * gives considerable attention to the interpretation of the children's artworks and the influences that contribute to the content they represent, and * considers varying models of art education along with the implications of introducing new representational possibilities.

Mastering Concept-Based Teaching Oct 15 2021 Written specifically for nursing faculty from the leading experts in concept-based nursing curricula, Mastering Concept-Based Teaching gives you all the strategies and guidance you need to plan, develop, and deliver an effective concept-based curriculum.

Renowned authors Dr. Jean Foret Giddens, Dr. Linda Caputi, and Dr. Beth Rodgers walk you through the background and benefits of using a concept-based learning approach, how to apply a research-based approach to teaching concepts, how to improve and evaluate student learning with concepts, and much more to ensure you are ready to successfully bring concepts into your nursing program. This insightful and indispensable guide to concept-based education: Provides an understanding of the nature of concepts, their function in the process of learning, and the importance of being consistent in the selection and implementation of concepts. Provides a general framework of general steps associated with the development of a concept-based curriculum. Illustrates ways to enhance the conceptual approach with balanced teaching strategies, an open environment, and engaging learning activities. Explains the importance of analyzing evaluation data to determine the effectiveness of a new curriculum on meeting program learning outcomes. If you are looking to make the move towards concept-based education in nursing, you can't afford to be without this innovative educational resource.

Chickens Aren't the Only Ones Jul 20 2019 Ruth Heller's prose and pictures are the perfect means for discovering the variety of oviparous animals and their unique ways of laying eggs.

Teaching ELLs to Read Jul 12 2021 In this essential book from ELL-expert Paul Boyd-Batstone, you'll find out how to teach reading while keeping in mind the unique needs of English language learners. You'll learn best practices and differentiated strategies for each domain of the Common Core Foundational Reading Skills, including print concepts, phonological awareness, phonics and word recognition, and fluency. Topics covered include: Ideas for using contextual support to help ELLs climb the staircase of complexity; How to teach print concepts, such as noting word separation and using punctuation; Strategies for teaching phonological awareness, including distinguishing vowel sounds and blending sounds; Ways to teach phonics and word recognition using informational and literary texts; and Exemplary ideas for teaching fluency, such as through poetry, drama, and digital media. The book is filled with ready-to-use activities and complete lesson plans that address selected CCSS performance tasks at each grade level. These lesson plans demonstrate how to differentiate instruction based on your ELLs' reading level. The book also includes performance-level descriptors, rubrics, and templates, available for free download from our website at <http://www.routledge.com/books/details/9781138017696>.

Secondary English and Literacy Sep 14 2021 The authors present a rigorous and informed view of ideas and approaches that is at the same time professionally and practically focused.

Making Music with iScore: Support Materials for Teachers Dec 17 2021 iSCORE is a web-based tool to help students make music. Its design is based on over a decade of research on how students learn to become independent musicians. This electronic portfolio has been created to promote independence, and to engage students fully in their music learning while interacting with their teachers, parents, and peers. Students can use iSCORE to learn repertoire through notation or by ear. There are features to enable students to link to sequencing and notation software, record themselves, and paste links of their favourite performances into their portfolios. Students can share their work with other students and with their teacher through iSCORE, and similarly, iSCORE can help teachers provide ongoing support to students by viewing students' work or disseminating materials for students. This book introduces users to the features of iSCORE and the underlying learning cycle (planning, doing, and reflecting). This guide also contains lesson plans and exemplars that teachers can use in the teaching and learning process.

ICT in Education and Implications for the Belt and Road Initiative Oct 03 2020 With increasing global challenges, the Belt and Road initiative seems to offer one possible platform to think about different possibilities and pathways to promote international collaboration and development covering Asia, Europe, Africa, and other countries. Information and Communication Technology (ICT) in education, as a key focus, provides valuable perspectives for governments, inter-governmental and non-governmental agencies wanting to innovate and advance both ICT and education independently and collaboratively. This book highlights the burgeoning of ICT in education in eleven countries, with particular emphasis placed on the context of the Belt and Road Initiative. ICT has increasingly important roles in education including improve teaching and learning qualities, as well as equity in education. The prominent contributors describe the state-of-the-art of ICT in education in eleven countries based on six major themes (policy perspectives, infrastructure, educational resources, ICT integration into practices, students' ICT competence, and teachers' professional development). We hope the in-depth discussions included in this book would provoke more academic and policy insights globally.

Brown Girl Dreaming Jun 30 2020 Jacqueline Woodson's National Book Award and Newbery Honor winner is a powerful memoir that tells the moving story of her childhood in mesmerizing verse. A President Obama "O" Book Club pick Raised in South Carolina and New York, Woodson always felt halfway home in each place. In vivid poems, she shares what it was like to grow up as an African American in the 1960s and 1970s, living with the remnants of Jim Crow and her growing awareness of the Civil Rights movement. Touching and powerful, each poem is both accessible and emotionally charged, each line a glimpse into a child's soul as she searches for her place in the world. Woodson's eloquent poetry also reflects the joy of finding her voice through writing stories, despite the fact that she struggled with reading as a child. Her love of stories inspired her and stayed with her, creating the first sparks of the gifted writer she was to become. Includes 7 additional poems, including "Brown Girl Dreaming." Praise for Jacqueline Woodson: "Ms. Woodson writes with a sure understanding of the thoughts of young people, offering a poetic, eloquent narrative that is not simply a story . . . but a mature exploration of grown-up issues and self-discovery."—The New York Times Book Review

Lesson Planning Tweaks for Teachers Jul 24 2022 Lesson planning is a requirement of every teacher. Whether you are planning your day-to-day lessons or a formal observation, planning is a skill that can be refined and improved to ensure your workload is manageable and your lessons exceptional. Aimed at committed and reflective teachers who want to develop their practice, this book introduces Tweaks for Teachers: small changes that make a big difference! It encourages you to review your current lesson planning practice and develop lessons that enable students to make outstanding learning gains. The book focuses on making practical, small changes that, over time, can make a real difference to the quality of learning and teaching in the classroom. Organised around real lesson snippets and full lesson plans covering every secondary subject, the book focuses on the key areas you need to plan for every lesson: assessment for learning, questioning, stretch and challenge and commitment to learning, as well as covering the importance of developing a good marking practice. Real examples of successful lessons are provided as well as a commentary of missed opportunities and practical 'tweaks' that could be made to improve students' learning and to develop outstanding teaching. This format means that the book is not only useful to those teachers wanting to develop their practice, but it is also a really useful training tool for those with responsibility for training new teachers or devolving a school's CPD provision. Lesson Planning Tweaks for Teachers takes a highly original approach to improving your lesson planning. Mel and Debbie's down to earth and accessible style will help every secondary teacher, whatever your level of experience, to make the planning process more meaningful and manageable, and one that leads to outstanding progress over time. Follow them on Twitter today for daily tips: @TeacherTweaks

Get Better Faster Oct 27 2022 Effective and practical coaching strategies for new educators plus valuable online coaching tools Many teachers are only observed one or two times per year on average—and, even among those who are observed, scarcely any are given feedback as to how they could improve. The bottom line is clear: teachers do not need to be evaluated so much as they need to be developed and coached. In *Get Better Faster: A 90-Day Plan for Coaching New Teachers*, Paul Bambrick-Santoyo shares instructive tools of how school leaders can effectively guide new teachers to success. Over the course of the book, he breaks down the most critical actions leaders and teachers must take to achieve exemplary results. Designed for coaches as well as beginning teachers, *Get Better Faster* is an integral coaching tool for any school leader eager to help their teachers succeed. *Get Better Faster* focuses on what's practical and actionable which makes the book's approach to coaching so effective. By practicing the concrete actions and micro-skills listed in *Get Better Faster*, teachers will markedly improve their ability to lead a class, producing a steady chain reaction of future teaching success. Though focused heavily on the first 90 days of teacher development, it's possible to implement this work at any time. Junior and experienced teachers alike can benefit from the guidance of *Get Better Faster* while at the same time closing existing instructional gaps. Featuring valuable and practical online training tools available at <http://www.wiley.com/go/getbetterfaster>, *Get Better Faster* provides agendas, presentation slides, a coach's guide, handouts, planning templates, and 35 video clips of real teachers at work to help other educators apply the lessons learned in their own classrooms. *Get Better Faster* will teach you: The core principles of coaching: Go Granular; Plan, Practice, Follow Up, Repeat; Make Feedback More Frequent Top action steps to launch a teacher's development in an easy-to-read scope and sequence guide It also walks you through the four phases of skill building: Phase 1 (Pre-Teaching): Dress Rehearsal Phase 2: Instant Immersion Phase 3: Getting into Gear Phase 4: The Power of Discourse Perfect for new educators and those who supervise them, *Get Better Faster* will also earn a place in the libraries of veteran teachers and school administrators seeking a one-stop coaching resource.

Science Education: A Global Perspective Apr 28 2020 Science Education: A Global Perspective is 'global' both in content and authorship. Its 17 chapters by an assemblage of seasoned and knowledgeable science educators from many parts of the world seek to bring to the fore current developments in science education and their implications. The book thus covers a wide range of topics in science education from various national and international perspectives. These include the nature of science, science and religion, evolution, curriculum and pedagogy, context-based teaching and learning, science and national development, socially-responsible science education, equitable access for women and girls in science and technology education, and the benefits of science education research. It ends on an optimistic note by looking at science education in 50 years' time with a recommendation, among others, for stakeholders to take the responsibility of preparing children towards a blossoming science education sector in an anticipated future world. This book is suitable for use by discerning researchers, teachers, undergraduate and postgraduate students in science education, and policy makers at all levels of education. Other educationalists and personnel in science and technology vocations will also find it interesting and useful as the reader-motivated approach has guided the presentation of ideas. Science Education: A Global Perspective is a rich compendium of the components of science education in context, practice, and delivery. Dr Bulent Cavas, Professor of Science Education, Dokuz Eylul University, Buca-Izmir, Turkey/President-Elect, International Council of Associations for Science Education (ICASE) This book will be of immense relevance for current and future global strides in training and research in science education. Surinder K. Ghai, Chairman, Sterling Publishers Pvt. Ltd., New Delhi, India This book provides a refreshing insight into the current status and future direction of science education. It will be very useful to researchers, those pursuing undergraduate and post-graduate courses in science education, and all other personnel involved in the policy and practice of science education. Dr. Bennoit Sossou, Director/Country Representative, UNESCO Regional Office in Abuja, Nigeria

Models of Teaching Feb 19 2022 Models of Teaching: Connecting Student Learning with Standards features classic and contemporary models of teaching appropriate to elementary and secondary settings. Authors Jeanine M. Dell'Olio and Tony Donk use detailed case studies to discuss 10 models of teaching and demonstrate how they can be connected to state content standards and benchmarks, as well as technology standards. This book provides readers with the theoretical and practical understandings of how to use models of teaching to both meet and exceed the growing expectations for research based instructional practices and student achievement.

The text includes sample lesson plans and study guides to show how a concept is taught in the classroom,clinical teaching activities that connect classroom and clinical learning, and clinical evaluation tools to assess student competence in a concept-based curriculum.

Teaching Virtue Nov 16 2021 In much of the world, religious traditions are seriously valued but, in the context of religious plurality, this sets educationalists an enormous challenge. This book provides a way forward in exploring religious life whilst showing how bridges might be built between diverse religious traditions. Teaching Virtue puts engagement with religious life - and virtue ethics - at the heart of religious education, encouraging 'learning from' religion rather than 'learning about' religion. The authors focus on eight key virtues, examining these for what they can offer of religious value to pupils and teachers. Individual chapters put the discussion into context by offering a vision of what religious education in the future could look like; the need for responsible religious education; a historical review of moral education and an introduction to virtue ethics. Lesson plans and examples demonstrate how the virtues may be approached in the classroom, making it an invaluable guide for all involved in teaching religious education.

Mastering Concept-Based Teaching E-Book Mar 20 2022 Get all the strategies and guidance you need successfully implement conceptual learning with Mastering Concept-Based Teaching, 2nd Edition. Written specifically for nursing faculty, renowned educators Dr. Jean Foret Giddens, Dr. Linda Caputi, and Dr. Beth Rodgers walk you through the background and benefits of using a concept-based learning approach; how to plan, develop, and deliver an effective concept-based course; and how to improve and evaluate student learning with concepts. This new second edition also features two new chapters — one on how to conduct concept-based clinical experiences and another chapter on the future of concept-based interprofessional learning. You'll also find updated content and more of the highly helpful Misconceptions and Clarifications boxes. So whether you're teaching in an LPN, ADN, BSN, or MSN program, this insightful book is here to ensure a smooth execution concept-based teaching.

Common Core Literacy Lesson Plans Aug 25 2022 Schools nationwide are transitioning to the Common Core--our advice to you: Be prepared, but don't go it alone! Our new book, Common Core Literacy Lesson Plans: Ready-to-Use Resources, 9-12, shows you that teaching the Common Core State Standards in high school doesn't have to be intimidating! This easy-to-use guide meets the particular needs of high school teachers. It provides model lesson plans for teaching the standards in reading, writing, speaking/listening, and language. Get engaging lesson plans that are grade-appropriate for teens, easy to implement, and include ready-to-use reproducible handouts, assessments, resources, and ideas to help you modify the lesson for both struggling and advanced learners. Our Common Core Literacy Lesson Plans are equally effective for both English and content-area teachers—the plans are designed to fit seamlessly into your high school curriculum. You get practical tips for revamping your existing lessons to meet the standards. High school students learn how to answer text-based questions, read informational texts, conduct research, write arguments, and improve their speaking and listening skills. We take the guesswork out of Common Core lesson plans with this practical, easy-to-use guide. All lesson plans are grade-appropriate, but every lesson plan includes... Common Core State Standards covered in the lesson Overview of objectives and focus of the lesson Background knowledge required and time required A detailed, step-by-step agenda for the lesson, plus a materials list Differentiation ideas to adapt the lesson for different kinds of learners Assessment ideas, including rubrics and scoring guides A place for your notes: what worked; what can improve Bonus! We show you how to extend the lessons into longer units to suit your particular grade's curriculum, and even help you create more of your own lessons!

The Leader's Guide to Working with Underperforming Teachers Aug 21 2019 Under increasing pressure in the face of teacher evaluation systems and accountability measures, schools must focus on those teachers that exhibit marginal to incompetent teaching behaviors in their classrooms. This book is a vital resource for educational leaders who are responsible for instructional programs and teacher evaluation. Zepeda's tried-and-true strategies will help you take the necessary steps to support and mentor struggling teachers by detecting underperformance, developing strategies to help teachers, engaging in difficult conversations to enact plans of improvement, and following legal requirements. The practical tools found in this book will help teachers improve their instruction, assessment, classroom management, and teamwork.

Teaching STEM and Common Core with Mentor Texts: Collaborative Lesson Plans, K–5 Sep 02 2020 Librarians can use this book to become leaders in their schools, collaborating with teachers to keep them abreast of resources that will facilitate the inclusion of STEM in the curriculum. • Offers five library lessons for each STEM subject based on a mentor text and a lesson for the collaborating teacher • Provides a booktalk to interest the students and a "Book Time" section that allows for reading all or parts of the book accompanied by a general discussion • Shows the range of grades for which each lesson is most suited and how it can be adapted • Includes a graphic organizer (GO Chart) with each lesson, as well as two options for assessing the lesson
