Journal: Sailing Jan 31 2020 If you are going through life right now feeling like everything is out of control or that things are not happening the way you planned, you need a journal to write in. Not to be too direct, but it is time for you to discover why you feel the way you do and then figure out what to do about it. WM Journals provides you with the perfect place to write about all of that self exploration. Or you can just write stuff in your journal! The great thing about a lined journal is you can make it into anything you want. A day timer, travel journal, diary, notebook for school, a place for your short stories, etc. If you need to write something down, a journal is the tool you need. If you want to use it for more than just a notepad then keep reading. Almost every successful person seems to have kept a journal in one form or another. Success in this case is not defined by money but overall happiness. Whether or not they called it journaling doesn't matter as they kept a record of their goals, success, failures, feelings and their daily life. Your journal contains the answers to your most burning questions. It is literally the best self-help book you could ever read because it is all about you. Just some of the benefits of journaling are: * Allows you to reflect on your life and the changes you are choosing to make or not make * Clarifies your thinking and as Tony Robbins says "Clarity is Power" * Houses all your million dollar ideas that normally get lost in all the noise of life * Exposes

repeated patterns of behaviors that get you the results you DON'T want* Acts as a bucket for you to brain dump in - a cluttered mind leads to a disorganized life* Revisits daily situations giving you a chance to look at it with a different perspective* Doesn't crash and lose everything you put into it like electronics (just like electronics though don't get it wet) You may want to keep multiple journals; one that contains your truest and most secret feelings that you guard heavily, but need a way to express. Another that contains all those fantastic ideas, creative endeavors, dreams and awesome goals. Maybe just something you doodle in. No matter how you use it getting into the daily habit of journaling has the potential to improve the quality of your life. Let's look past the simple fact you know how to physically write in a journal and dig into how to actually use your journal. It might contain all the secrets to life's biggest problems but unless you know how to uncover those secrets they stay hidden away in your words.* Let the words flow from the heart and be filled with emotions, no holdbacks* Make a daily journaling schedule. Each and every day take the time to record your thoughts morning and night. If you love to type notes into your phone all day transfer them to your journal after.* Sit in a quiet spot and allow yourself to be emotionally and creatively free. Your journal is not a reason to turn yourself into an emotional punching bag.* Start small. You do not need to write a specific number of words. Just the right amount of honest words that let you feel a sense of being free from negativity and energized with possibility.* If you write in your journal like someone is going to read it, you will ever allow yourself to fully express what needs to be expressed. Write like no one will ever read it because it is likely no one ever will unless you want them to. Write how you loved something, were mad at someone, wished something was different or anything you need to. Just do it. Start today writing in your journal. You could even put "Today I bought this awesome journal and will recommend all my friends do the same." At 6x9, WM Journals fit in most purses, totes and backpacks. WM Journals make a perfect gift for yourself or the writer in your life. 200 Writable Pages Measures 6"x9" Full Glossy Color Exterior B&W Interior on Cream Paper Softcover

Living the Dream May 17 2021 About our Book Living the Dream is the true-life adventure story of our seven-year cruise from Newport, Oregon, to Phuket, Thailand in the 35-foot steel-hulled sailboat, Tainui. This book gives a true picture of what it's really like for a retired couple to live their dream of full time cruising to far away places: the highs of beautiful sailing days, snorkeling off pristine coral, anchoring in tropical lagoons, exotic cultural experiences, and the fellowship of the cruising community--but also fear in storms, the exhaustion of sleepless night watches, discouragement of endless boat maintenance, and a rusting through of Tainui's hull. Although we wrote Living the Dream for a general audience, serious sailors will find a wealth of helpful cruising information and steel boat owners will profit from our significant learning experiences in our maintenance of Tainui's steel hull. About us We began our lives far apart--Connie in parts of Californis that were far from the sea and with no aspirations to cross oceans and Vern in the busy seaport city of Seattle dreaming of sailing away some day. We eventually met at the University of Washington, married, started or family and careers--Vern as a social worker and Connie as a teacher. It was our four years of living with our family in Malaysia while Vern was on the staff of the Peace Corps there that sparked our desire to one day be full time world travelers. Seven at Sea Nov 03 2022 A New York City family's remarkable story of how they gave up their urban life, packed up their family of seven--the youngest, a six-year-old with Down syndrome--and braved the difficult conditions of the Atlantic Ocean as they sailed more than 2,500 miles from New York to and around the Caribbean. They thought of all the reasons why risking everything for a year at sea was a bad idea: They could go broke, get injured, be stranded at sea--maybe even die. More than likely, the only thing they would accomplish would be to embarrass themselves. Besides, only rich people sailed the world, right? Not a NYC theater family with five kids who would serve as the ship's entire crew. After all the deliberations,

one thing was clear: their children would either be an excuse or a reason. They chose to set sail. Their journey proved to be a life-changing experience as they grew closer as a family and explored the world in a new way. They traveled to twenty-three islands, spanning eleven countries and territories, and got a hands-on global education while meeting new people and appreciating a variety of cultures. They experienced the beauty and fragility of the earth as well as the vastness and power of the sea. Working together as a family and a sailboat crew meant learning how to tackle hard challenges together, helping each other improve their skills, and exercising patience when difficult conditions emerged. *Seven at Sea* tells the story of a family learning to live together, simply and in harmony with the natural world. In doing so, they learned that giving up control can sometimes lead to amazing adventures. More importantly, they discovered how little they actually needed to be abundantly happy.

Cape Horn Jul 07 2020 "Having raced twice around the world myself, I can appreciate the stresses and trials that Jeff has endured traversing the Southern Ocean and rounding iconic Cape Horn. His writing conveys a great Corinthian spirit of adventure, and is a tribute to all the sailors that have dared this passage. In human history it wasn't so long ago that rounding Cape Horn was akin to going to the moon, and many never returned. Jeff brings that spirit of adventure to the pages of this book." -Bruce Schwab, *Around Alone Racer* "Sailing around Cape Horn alone is not everyone's "Milk shake." I had decided to do it because after 60,000 miles of sailing ocean passages they were becoming too familiar. My wife Debbie and I had sailed clear of Ecuador and down to Peru. It was on that passage that I realized just how close to the Horn I was and realized I just needed to give it a "Shot". Debbie felt no need to try it so she volunteered to become my shore side support. Now most people don't realize the problems of going West to East around the "Horn", and I was one of them. With nearly 45-years of sailing experience under my keels and *Sailors Run* a 40ft. *Baba Ketch*, I felt confident that the 5,000 NM passage was doable. What I did not know is that the worst storms occur in the summer season. I also learned that the Humboldt Current runs up the coast of Chile at nearly two-knots. The wind also comes up from the south, so you must set sail from Peru heading SW and eventually you will end up 1,000 NM off of Chile (at 45° South) before you can start your run in towards the "Horn". You experience a severe low just about every three days with storm force winds. Anyone who thinks going West to East is easy, best try it before they make that claim. In this book, you will not only experience what it takes to sail in the Southern Ocean, but you will get an in-depth look into the life of a sailor who had to overcome insurmountable "road blocks" to live out his dream, a life of freedom upon the sea.

Sailing Rock Art Boats Jun 05 2020 This book argues that the use of sail as a complement to paddling would have formed an integral part of the development of centres of power in the early Scandinavian Bronze Age, permitting more frequent communication, and thus helping to expand, maintain and control power. This argument stands in sharp contrast to the current belief that the introduction of the sail in the North occurred between the 7th or 8th and the 10th centuries AD. This reassessment of the potential timing and development in the use of the sail derives mainly from an examination of the Bronze Age rock art (c. 1800-500 BC) in southern Scandinavia containing imagery of boats with attributes that can be interpreted as masts and sails, in combination with experimental sail trials in Bronze Age typeboats, and using early sailing in ancient Egypt and Oceania as a backdrop.

Sailing Away Jan 25 2022 The moment you think you see where *Sailing Away* is going to take you, I promise: you don't. These deft, sometimes daft, consistently dark stories are as impossible to outguess and bewilderingly interesting to ride as the postmodern Pacific that inspires them. --David James Duncan About the Author(s) Richard Morgan's short stories have appeared in numerous literary publications and have won him a number of distinctions, including the Kay Snow prize for fiction and a National Endowment for the Arts Creative Writing Fellowship. He also regularly contributes nonfiction articles to martial arts magazines and is currently at work on a book about the martial arts. He lives in Portland, Oregon, with his wife and daughter.

Sailing Made Easy Dec 24 2021 *Sailing Made Easy* is the first step in a voyage that will last you the rest of your life. It is also the official textbook for the ASA Basic Keelboat Standard (ASA 101). Incorporated in the textbook are useful illustrations and exceptional photographs of complex sailing concepts. The Gentleman's Guide to Passages South Nov 22 2021 This is the Tenth and last Edition of the popular directions for sailing south to the Bahamas and the Caribbean. For more than twenty years Van Sant repeatedly surveyed nearly 200 anchorages between Florida and South America. He racked up well over 80,000 sea miles doing it, mostly single-handed. Why? You'll find some interesting answers in his book of stories, *Margarita Cat*, but essentially, he did it because he liked doing it. Sailing up and down the chain of islands so much and so often, he got to looking for shorter and easier ways to navigate between each link in the chain, and he kept refining detailed nav plans for every leg. He has systematically taken the thorns out of the route they used to call the Thorny Path. For example, he exploits the calming effects on wind and sea which result from land cooling on each side of an inter-island passage. Applying his many methods, both sail and power can make safe, comfortable and pleasant progress even against normally impenetrable trade winds and seas. *Passages South* offers an illustrated manual of instruction for specific passages and harbors down islands as well as a cruising guide for the Greater Antilles islands of Hispaniola and Puerto Rico. It has sailed aboard tens of thousands of boats passaging between the Americas. It should sail with you too.

Sailing to Treasure Island Jul 19 2021 Legendary sailor Captain J. C. Voss meets a mysterious man in his hotel in Victoria, British Columbia in 1897. The mystery man says he knows where tons of gold and jewels are buried on the remote Cocos Island. Voss takes a 35-foot sailing sloop seven thousand miles through gales in search of the pirate Treasure of Lima worth seven million pounds sterling in 1897 or over \$200 million today. *This is an edited, abridged, and annotated version of the first section of the Venturesome Voyages of Captain Voss concerning the voyage of the XORA sloop. This is the only part of that work focused on treasure hunting.*In the 2018 edition, the text is extensively edited as the first edition from 1913 had many run-on sentences and poor subject and verb agreement.*A biography of the great mariner Captain J.C. Voss is written by the editor.*Frequent footnotes and an editor's note put the text in historic context.*This is an abridged version of the VENTURESOME VOYAGES OF CAPTAIN VOSS. This abridged version focuses exclusively on the cruise of the sailboat XORA and treasure hunting aboard it. Most of the VENTURESOME VOYAGES OF CAPTAIN VOSS is about the voyage of the sailing canoe named TILIKUM.Below are some selections from the book:"My seafaring life commenced in the year 1877, when I was quite a young man. Up to the time that I sailed in the Xora, it was spent in large sailing vessels. During this period, I have filled all sorts of positions from deck boy up to master.Throughout all those years, I would certainly not have believed that a vessel so small as the Xora could live through a heavy gale at sea. Naturally enough, I should not have thought of attempting a long sea voyage in any small craft if it not been for a gentleman, whose name was George Haffner, an American citizen.In the summer of 1897, when I was sitting comfortably in an easy chair in the Queen's Hotel, Victoria, British Columbia, a gentleman stepped up to me, saying, "Are you Captain Voss?" I replied in the affirmative. He then introduced himself as Mr. Haffner, handing me at the same time a letter, saying that it was from an old friend of mine, whose death had taken place at sea just fourteen days previously, and with whom he had stayed during his last moments.""...The bearer of this note is Mr. George Haffner, who knows the position where the great treasure lies on Cocos Island. Believe in him, and he will make you a rich man. Excuse my short note, because I am very weak. Kindly remember me to all my old friends and believe me.Your dying friend, JIM DEMPSTER"Captain Voss is one of the early pioneers of long-distance sailboat cruising. He is the first major author in the genre of the sailing narrative write about his travels under sail after Captain Joshua Slocum. He is more famous for his 40,000-mile voyage in a sailing canoe named TILIKUM, but this treasure hunting adventure under sail is a book that will delight all readers.Oxriver Publishing produces titles of interest to sailboat cruising enthusiasts. This is an

annotated and modernized version of Captain Voss' classic account in the VENTURESOME VOYAGES OF CAPTAIN VOSS, which includes an editor's note and biography of John C. Voss by Dr. Linus Wilson. The editor is the creator of the Slow Boat Sailing YouTube Channel and Podcast as well as the author of several sailing books.

Sea Wife Oct 10 2020 A New York Times Notable Book "Sea Wife is a gripping tale of survival at sea—but that's just the beginning. Amity Gaige also manages, before she's done, to probe the underpinnings of romantic love, marriage, literary ambition, political inclinations in the Trump age, parenthood, and finally, the nature of survival itself in our broken world. Gaige is thrillingly talented, and her novel enchants." —Jennifer Egan "Sea Wife brilliantly breathes life not only into the perils of living at sea, but also into the fraught and hidden dangers of domesticity, motherhood, and marriage. What a smart, swift, and thrilling novel." —Lauren Groff From the highly acclaimed author of Schroder, a smart, sophisticated page literary page-turner about a young family who escape suburbia for a yearlong sailing trip that upends all of their lives. Juliet is failing to juggle motherhood and her stalled-out dissertation on confessional poetry when her husband, Michael, informs her that he wants to leave his job and buy a sailboat. With their two kids—Sybil, age seven, and George, age two—Juliet and Michael set off for Panama, where their forty-four foot sailboat awaits them. The initial result is transformative; the marriage is given a gust of energy, Juliet emerges from her depression, and the children quickly embrace the joys of being feral children at sea. Despite the stresses of being novice sailors, the family learns to crew the boat together on the ever-changing sea. The vast horizons and isolated islands offer Juliet and Michael reprieve – until they are tested by the unforeseen. Sea Wife is told in gripping dual perspectives: Juliet's first person narration, after the journey, as she struggles to come to terms with the life-changing events that unfolded at sea, and Michael's captain's log, which provides a riveting, slow-motion account of these same inexorable events, a dialogue that reveals the fault lines created by personal history and political divisions. Sea Wife is a transporting novel about marriage, family and love in a time of unprecedented turmoil. It is unforgettable in its power and astonishingly perceptive in its portrayal of optimism, disillusionment, and survival.

This book is doubly for you. Fancy doing an expedition cruise here? This travel guide is especially for you. A trip to the seventh, white continent is the ultimate adventure for the intrepid traveller and the vast majority of visitors come here on an expedition cruise. This is the first travel guide to show what it's really like to take part in this type of voyage and Jo Kessel delivers a gripping, day-by-day account of her own experience. Illustrated with personal photos it explores the highs (including the waves on the infamous Drake Passage) and the lows - from penguins, to whales, to icebergs to glaciers as well as the hiking, kayaking, polar plunging and camping which are integral features of an expedition cruise. Are you too old? Not fit enough? Is it too cold? What to wear? Jo Kessel has advice for every eventuality, offering insider TOP TIPS at the end of each chapter. Jo Kessel is a British novelist, journalist and travel writer for the Daily Mail, Mail on Sunday, Sunday Times and Daily Telegraph. She also has her own YouTube travel channel: Go with Jo. Part travelogue, part photo-journal, this expedition cruise travel guide to Antarctica was inspired by the diary of early polar explorer Sir Ernest Shackleton. It's a witty, reflective chronicle which also touches upon more serious issues like Antarctic conservation, plastics pollution and climate change. Sailing the Wine-Dark Sea Aug 20 2021 NATIONAL BESTSELLER • The bestselling author of *How the Irish Saved Civilization* takes us on a journey through the landmarks of art and bloodshed that defined Greek culture nearly three millennia ago. “A triumph of popularization: extraordinarily knowledgeable, informal in tone, amusing, wide ranging, smartly paced.” —The New York Times Book Review In the city-states of Athens and Sparta and throughout the Greek islands, honors could be won in making love and war, and lives were rife with contradictions. By developing the alphabet, the Greeks empowered the reader, demystified experience, and opened the way for civil discussion and experimentation—yet they kept slaves. The glorious verses of the Iliad recount a conflict in which rage and outrage spur men to action and suggest that their “bellicose society of gleaming metals and rattling weapons” is not so very distant from more recent campaigns of “shock and awe.” And, centuries before Zorba, Greece was a land where music, dance, and freely flowing wine were essential to the high life. Granting equal time to the sacred and the profane, Cahill rivets our attention to the legacies of an ancient and enduring worldview.
